DayWater Press Release – Sept. 2005

Water – Environment - People

International Conference & Workshop

Date

International Conference on Decision Support for Integrated Urban Stormwater Management and

Final DayWater Workshop

03 – 04 November 2005

Venue

Ecole Nationale des Ponts et Chaussées (ENPC) ;
Champs-sur-Marne (RER A station Noisy-Champs)

Language

English and probably translation into French

Agenda

Scientific programme:

There will be four sessions per day, i.e. 2 in the morning and 2 in the afternoon. Plenary oral presentations will extend on 3 of such sessions and be devoted to:

- Decision support for urban stormwater management,
- Risk analysis and impact assessment of urban stormwater,
- Selection criteria for urban stormwater source control.

Session topics

Besides these plenary sessions, there will be parallel workshops with demonstrations, presentations and discussions on specific tools related to decision making in stormwater source control, developed within the DayWater project:

- DayWater ADSS: a general visit via the Hydropolis interface,
- DayWater ADSS guided visit: from the “profile” definition to the building of the Matrix of Alternatives (MoA) and to the Multicriteria Analysis (MCA),
- Chemical hazard identification and assessment tool (CHIAT) and vulnerability mapping (FLEXT),
- Source and flux models in urban stormwater (STORM and SEWSYS).

Workshop topics

The scientific programme and the lunch and coffee breaks will allow significant discussion periods and interactions with the developers of the DayWater ADSS and its components.

Deadline for pre-registration

Pre-register before
15 September 2005

Send your abstract before
30 September 2005

DayWater Press Release – Sept. 2005

Water – Environment - People

Supporters

National technical associations & societies in urban hydrology, local authorities, as well as their international equivalent (IWA-IHR Joint committee in urban hydrology, DGXII...)

Target group

100-150 persons
Scientists, end-users, urban stakeholders (contacted either directly or using "Supporters" institutions)

Proceedings

Abstract booklet handed out to all participants as well as CD-ROM with all papers.

Publication

Input:

Selected and possibly revised conference papers + EC and CityNet introductions + workshop discussion transcripts

Volume:

Ca. 200 pages

Chapter referees:

DayWater partners

Publisher:

To be identified

Dissemination:

One issue to each participant
